

Netflix Dataset Analysis — Visual Summary

This document presents a visual walkthrough of my **Exploratory Data Analysis (EDA)** project on Netflix content using Python and Pandas.

Objective:

To understand patterns and insights hidden within Netflix's catalogue, such as content type distribution, genre breakdown, and data quality issues (e.g., missing values, duplicates).

Key Steps Highlighted in the Screenshots:

- 1. Dataset Preview**
Initial look at the dataset including title names, release dates, and popularity metrics.
 - 2. Null Value Analysis**
Identifying and quantifying missing values to assess data cleanliness.
 - 3. Duplicate Removal**
Ensuring data integrity by dropping duplicate entries.
 - 4. Genre Splitting & Explosion**
Transforming comma-separated genres into individual rows for accurate analysis.
 - 5. Genre Distribution**
Visualizing the most common genres across the Netflix platform.
-

Tools Used:

- Python
 - Pandas
 - Jupyter Notebook
 - Matplotlib / Seaborn (for plots)
-

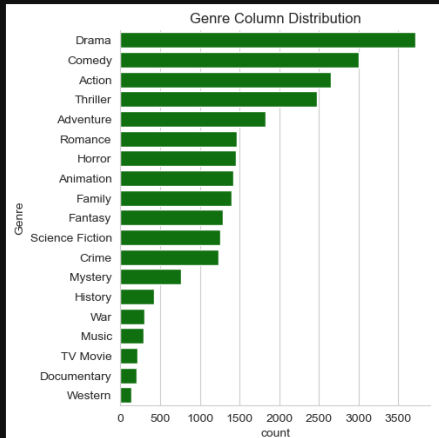

This PDF acts as a snapshot of the data wrangling process and highlights how simple preprocessing can unlock deeper insights in streaming content analysis.

What is the most frequent genre of movies released on Netflix?

```
[64]: df['Genre'].describe()
```

```
[64]: count    25552  
unique      19  
top         Drama  
freq       3715  
Name: Genre, dtype: object
```

```
[66]: sns.catplot(y = 'Genre', data = df, kind = 'count',  
               order = df['Genre'].value_counts().index,  
               color = 'green')  
plt.title("Genre Column Distribution")  
plt.show()
```

What movie got the highest popularity? what's its genre?

```
[69]: df.head(2)
```

```
[69]:
```

	Release_Date	Title	Popularity	Vote_Count	Vote_Average	Genre
0	2021	Spider-Man: No Way Home	5083.954	8940	popular	Action
1	2021	Spider-Man: No Way Home	5083.954	8940	popular	Adventure

```
[72]: df[df['Popularity'] == df['Popularity'].max()]
```

```
[72]:
```

	Release_Date	Title	Popularity	Vote_Count	Vote_Average	Genre
0	2021	Spider-Man: No Way Home	5083.954	8940	popular	Action
1	2021	Spider-Man: No Way Home	5083.954	8940	popular	Adventure
2	2021	Spider-Man: No Way Home	5083.954	8940	popular	Science Fiction

What movie got the lowest popularity? what's its genre?

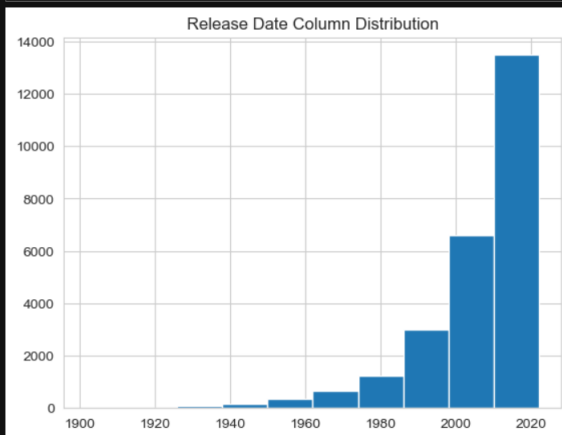

```
[75]: df[df['Popularity'] == df['Popularity'].min()]
```

```
[75]:
```

	Release_Date	Title	Popularity	Vote_Count	Vote_Average	Genre
25546	2021	The United States vs. Billie Holiday	13.354	152	average	Music
25547	2021	The United States vs. Billie Holiday	13.354	152	average	Drama
25548	2021	The United States vs. Billie Holiday	13.354	152	average	History
25549	1984	Threads	13.354	186	popular	War
25550	1984	Threads	13.354	186	popular	Drama
25551	1984	Threads	13.354	186	popular	Science Fiction

Which year has the most filmed movies?

```
[77]: df['Release_Date'].hist()  
plt.title('Release Date Column Distribution')  
plt.show()
```

Which has highest votes in vote avg column?

```
[68]: sns.catplot(y = 'Vote_Average', data = df, kind = 'count',  
order = df['Vote_Average'].value_counts().index,  
color = 'red')  
plt.title('Votes Distribution')  
plt.show()
```
